

ZAP-TV1000 MCE Edition Designed for WinMCE 2005

Introduction:

The ZAP-TV1000 MCE is designed for low cost and High Quality Windows® Media Center Edition experience. Powered by the reliable Conexant CX23416 / CX23880 chipset. The ZAP-TV1000 MCE is using the Philips MK3 PAL/SECAM Tuner for high quality TV signal transfers to your PC. The unique design of the ZAP-TV1000 MCE makes the product fit in modern HiFi look PC housing or just regular PC housing designs. The ZAP TV1000MCE is fully compliant to Windows® XP Media Center Editions.
